

# POSC 101: Introduction to American Government

## Course Syllabus & Simulation Guide

Instructor: Professor [Name]

Contact: [Email]@college.edu

Office Hours: [Day/Time]

---

### Course Description and Objective

This course introduces the fundamentals of the American government, including its political institutions and main actors. A key focus will be on how citizens interact with the government and ways to become informed and active participants in the political system. We will also compare American political institutions and behaviors with those of other countries to provide a comprehensive understanding of the American political system.

**The Statecraft US Government simulation will be integrated into the course to provide practical experience and deeper insights into the workings of government.**

### Required Texts

- "American Government: Power and Purpose" by Theodore J. Lowi, et al.
- "The Logic of American Politics" by Samuel Kernell, et al.
